

In response to COVID19 pandemic.

We never thought it could ever possibly come to this, but here we are. Our community businesses are making such unthinkable choices by the hour as this global crisis intensifies. After careful consideration and in order to minimize the risk to our customers and our community, we have made a terribly difficult decision to temporarily close our retail store to all but mail order and appointment-only business.

If you need to pick up a job, please call or text us at **(207) 462-2215 and we will accommodate you. The same is true for some of your other jewelry needs. We will still do repairs, either through the mail or by appointment only. We will not be changing watch batteries until further notice, there is just no way to sanitize watches.**

For jewelry purchases: our online store will still be open and most of the items are available, email us for any inquiries and we will try to accommodate you as best as we can.

**We also have an extensive Etsy store. Use this link to access it:
<https://www.etsy.com/shop/CreaserJewelers/>**

We will run Etsy sales and specials over the next few weeks.

Custom orders and project services are still available. Contact us through our website or at creaserjewelers@aol.com for details. We do a surprising amount of business over the internet with no physical contact.

We wish you all health and safety. With luck we will be through this crisis quickly with a minimal amount of inconvenience and trouble.

We love you all and hope to see you soon.
